Ministry of Urban Development
Planning Division, New Delhi

BASED ON APPROVAL OF MOUD, GOI VIDE LETTER
NO. K 12011/23/2009/DDIB ON 08.03.2010

**DELHI DEVELOPMENT AUTHORITY
DWARKA PROJECT**

PREAMBLE

*The Zonal Development Plan for **Zone L (West Delhi-III)** has been approved by the Central Government, vide letter No.K-12011/23/2009-DDIB dated the 8th March 2010 under Section 9(2) of Delhi Development Act, 1957.*

The regularisation of Cultural, Religious (including Spiritual), Educational and Healthcare institutions shall be subject to fulfillment of the Conditions as given in chapter no. 2.8.7 of the Zonal Development Plan (report) / Government directions issued from time to time.

Indication of Influence Zone along MRTS / Major Transport Corridor (as well as indication of uses other than residential and facility corridor) shall be undertaken at the stage of Layout Plans/ Local Area Plans, as per provisions of MPD- 2021 and the Guidelines/ Conditions, as notified by DDA with the approval of Government of India from time to time.

ZONAL DEVELOPMENT PLAN

PLANNING ZONE 'L' (WEST DELHI - III)

1.0 INTRODUCTION

1.1 BACKGROUND

The Zonal Development Plan is prepared under the provisions of Master Plan for Delhi and as per Delhi Development Act, 1957. It provides a link between the Master Plan and layout plans.

According to Master Plan for Delhi -2021, notified on 07.02.07 National Capital Territory of Delhi has been divided into 15 planning zones. Out of these, 8 Zones (A to H) cover existing Urban Area as shown in the Land Use Plan. Zone 'O' covers River Yamuna and the remaining 6 zones (Zone J to P) are part of Urbanisable Area.

1.2 ZONAL DEVELOPMENT PLAN

A Zonal Development Plan means a plan for each Zones (Division) containing information regarding provision of social infrastructure, parks and open spaces, circulation system etc. The Zonal Development Plan indicates the actual as well as proposed use-zones designated in the 9 'land use' categories stated in the Master Plan according to which the area in the Zone is to be finally developed. User indicated in the Zonal Development Plan will not give automatic right to the owners to use their property / land for the designated use.

Based on the availability of the infrastructure services by the respective departments, the urbanisable areas will be opened up for development in a phased manner to meet with the needs of urbanization envisaged in the Master Plan-2021. The hierarchy of Urban Development indicated in the Zonal Development Plan is to be in conformity with table 3.3 of Master Plan -2021.

1.3 LOCATION AND AREA

The Zone 'L' covers an area of 21933 Ha. which is bounded by the following:

- i) Delhi Rohtak Railway line in North
- ii) Existing H T line and Zone 'K' mainly comprising of Dwarka Sub- City, in East and
- iii) The National Capital Territory of Delhi boundary on its Southern and Western sides.

In the zone there are 58 Villages and one Census Town known as Najafgarh (Refer Annexure-I). Part of revenue area of 6 villages located in Zone 'K' also fall in this zone.

1.4 STATUTORY PROVISIONS & OBJECTIVES

Delhi Development Act, 1957 under section-8 provides for the preparation of the Zonal Development Plan.

Zonal Development Plan is required to detail out the policies of the MPD-2021 and serve as link between the Master Plan and the various lay out plans. This zonal plan is to provide directions and basic guidelines for preparation of detailed schemes / projects, and plans, e.g., site plans, local area plans and ward plans etc.

The basic objectives of Zonal Plan for Planning of Zone 'L' are:

- i) To provide adequate shelter along with physical & social infrastructure for assigned population.
- ii) To provide work centers
- iii) Conservation of environment.
- iv) Public, Private and Community participation to remove bottleneck and delay in the assembly of land through mix of land acquisition and new assembly techniques involving public and private sector (land owner).
- v) Redevelopment of existing built up area, regularization of existing unauthorised colonies as per the policy of the Government with the objectives to provide basic infrastructure and to improve the environment by development of proper road width, parking facilities, community facilities.
- vi) Integration of transport network with the other parts of the city.

1.5 CHARACTERISTICS OF THE ZONE

The zone is the largest of 15 zones of Delhi and is predominantly rural in character. Najafgarh is the only census town in the Zone. Most of the area of Zone 'L' forms part of the Najafgarh drainage basin. The topography of the zone depicts gentle slope from the North to South. The Najafgarh drain originates from Najafgarh Jheel in the South west Delhi - Haryana border and traverse a length of about 51 Km before meeting in River Yamuna. Inflow of water into this drain is mainly from the following sources:

- a) Northern flood water through out fall drain No. 8
 - b) Shahibi water through out fall drain No. 8
 - c) Southern water spill over through Manesar and Gurgaon nallahs that joins the Jheel,
 - d) Run off from Najafgarh block through major channels such as Palam Mungeshpur drains and arteries of smaller drains, out falling up-stream of Kakrola.
- i) Najafgarh Drain: It is one of the very old drains which emanates from Rajasthan / Haryana as a rivulet, where phased improvements have been carried out over the years. The capacity of the drain is about 3000-8000 cusec in different segments, with very gentle gradient.
 - ii) Water Supply: The present availability of potable safe drinking water in this area is inadequate. Most of water requirement is met out by tubewell. However, the output performance of tubewells has shown a declining trend.
 - iii) Hydrology: The thickness of the alluvium is 300 m or more in most part of Najafgarh block. The bed-rock consists of Alwar Quartzite which is well stratified. Most part of the zone has non-calcareous soils with Iron and Manganese concentrations. The soil is well drained with moderate permeability.
 - iv) Forests: As per the information received from the Forest Deptt. of GNCTD, the Najafgarh block has 2 protected forests in village

- Mitraon- Area about 105 acres. (40.2 Ha.)
- Jainpur- Area about 245 acres (90.8 Ha.)

v) Police / Para Military Campus: Three major institutional campuses related to police / para-military forces are existing in the zone. The campus of Border Security Forces is located in the Revenue area of village Chhawla, whereas campus of Central Reserve police Force (CRPF) is located in village Jharoda Kalan and Air Force Station, Dhansa is located in village Isapur. These campuses are existing for more than a decade.

2.0 ZONAL PLAN PROPOSALS

Consistent with the Master Plan framework and provisions, the policies for Zonal Development Plan have been detailed out. The plan ensures retention of both green area and green belt for ecological balance as well as promotes development of areas in terms of activities / facilities.

2.1 EXISTING DEVELOPMENT

(a) Based on the satellite imagery existing built up area in the zone has been broadly assessed and analyzed. Built up area of Najafgarh town itself is about 780 Ha. Total area of zone as per village revenue record of GNCTD comes to 21933 Ha (refer Annexure – I).

All 58 villages are connected with roads most of which are having ROW less than 30m. Najafgarh is a major urban agglomeration connected with Nangloi - Najafgarh Road having road width of (25m-28m), Dichaon Kalan - Najafgarh Road having road width of (20m-26m), Jharoda Kalan- Najafgarh Road having road width of (25m-30m), Dhansa –Mitraon – Najafgarh Road having road width of (20m-25m), Bijwasan- Najafgarh Road having road width of (18m-31m) upto Chhawla. DTC Terminals are existing in Najafgarh and village Baprola.

Schools and health centers are available in most of villages either in abadi area or near village. Besides these, there exist a few Sr.Secondary schools owned by private societies / trusts which have recognition or are in the process of getting recognition from Govt. of Delhi.

Approximately built up area of villages and unauthorized colonies is 1380 Ha. Built up area of villages falling in green belt is computed as 643 Ha. List of villages falling in green belt is placed in Annexure-I. Total built up area comes to 2023 Ha.

There are about 154 unauthorised colonies which are listed in regularization list of NCTD (Refer Annexure-II).

Cremation ground / burial grounds are existing on outskirts of villages, which shall be located / relocated keeping in view the proposed development in the zone.

In the Zone, there is hardly any planned recreational area developed by Local Body or DDA or GNCTD. 131 Ha area is categorized as reserve forest located in village Jainpur and Mitraon.

In this zone a site of 400 KV sub-station near Rohtak Road has been earmarked.

b) Existing institutional activities/PSP facilities:

The following facilities are permissible under clause 8(2) of MPD-2021 (page 125, 126 of Gazette of India) as part of the approval of layout plan or as a case of special permission from the Authority:

- a) Hospitals (upto 100 beds)
- b) Primary Health Center/Family Welfare Centre/maternity Home/Dispensary etc.
- c) Nursing Home/Polyclinic/clinic/Clinical Laboratory etc.
- d) Dispensary for pet and animals
- e) Primary school/Middle school
- f) School for Mentally/Physically Challenged
- g) Technical Training Centre (ITI / Polytechnic / Vocational / Training Institute / Management Institute / Teacher Institute etc.)
- h) Facilities e.g., Bus terminal, taxi stand, milk/vegetable booths, religious premises, vending booth, petrol/CNG filling pump, recreational club, police post, police station, fire station, post office & telegraph office and telephone exchange.

2.2 ZONAL PLAN PROPOSALS

To accommodate about 20 lakh population following land use distribution has been proposed.

PROPOSAL LAND USE- ZONE L

TABLE 1

Sl.No.	Use	Area in Ha.	%
1.	Residential	5344	46.03
2.	Commercial	600	5.17
3.	Industrial	641	5.52
4.	Public / Semi Public Facilities at city level at Community level	(1800) 1261.6 538.22	15.50
5.	Govt.(Use undetermined)	658	5.67
6.	Recreational	1509	13.00
7.	Transport	930	8.01
8.	Utilities	129	1.11
	Total	11611	100

2.3 POPULATION AND EMPLOYMENT

Population of the zone as per census 1981 was 88,342 which increased to 1,57,561 in year 1991 and about 9 lakh in year 2001.

Urbanisable area of the zone is 11,611 Ha. Considering population density of 250 - 300 person per Ha, will accommodate about 30 lakh population in the zone including the existing population of villages, unauthorized colonies and the Najafgarh town (Refer Annexure I). It is proposed that zone should be planned for 20 lakh population in view of constraint of physical infrastructure. The employment generation in this zone shall be mainly in the form of the Trade and Commerce, Whole sale markets and Hi-tech industries.

2.4 RESIDENTIAL DEVELOPMENT

For residential development 5344 Ha. of land is proposed in a hierarchy of Neighborhood, community etc. A Neighborhood module of 20-25 Ha. shall accommodate about 10,000 population as per density norms of Master Plan. About 5 Ha. of land in each module shall be provided for neighborhood facilities such as Sr. Secondary School, Park & Play ground etc.

2.4.1 Unauthorised Colonies:

The process for regularisation of Unauthorised colonies is being coordinated by the Govt. of GNCTD. Regularisation of unauthorized colonies is a continuing process and is subject to the Government guidelines approved from time to time. The tentative list of the Unauthorized colonies falling in the Zone is placed at annexure II. As in the case of Village Abadis, the 'land use' of the finally approved Unauthorized colonies located in any use zone, at any point of time, within the boundaries specified by the competent authority, would be 'residential'.

There are about 154 unauthorized colonies in the zone, which shall be dealt as per Government policy for regularization. Most of these residential built-up area consisting unauthorized colonies and villages are deficient in facilities and have approach road / streets of smaller or inadequate width which would necessitate a redevelopment plan.

Master Plan for Delhi-2021 recommends preparation of redevelopment plans for Unauthorised Colonies and the villages; which shall ensure the permissibility of mixed use zoning at property or within the premise level compatible to the predominant residential areas. It must be ensured that for improvement of the physical and social infrastructure, the minimum necessary level of services and community facilities are to be provided in all unauthorized colonies.

- (i) **Physical Infrastructure:** Plans for provision of services shall be prepared by the concerned local bodies.
- (ii) **Social Infrastructure:** For provision of social infrastructure, reduced space standards shall be adopted. Depending on the availability of land, facilities like community hall, dispensary etc. can be grouped together.

Najafgarh Town, built up area of villages, unauthorized colonies are existing in an area of about 2023 Ha. Najafgarh Town and built up area around this town has been considered as special area for which Redevelopment Plan and Special Area Plan shall be prepared. The core area of Najafgarh Town has historical importance, which is proposed to be designated as "Special Area". Accordingly Special Area, Regulations of MPD-2021 (Page 122 of Gazette of India) shall be applicable. However, the peripheral / recent developments including unauthorized colonies are to be dealt as per respective policies and plans.

The provision of requisite social infrastructure shall be governed by the norms for residential neighborhood of 10,000 population. In any residential sub division plan the minimum area served for social infrastructure shall be about 7 sq.m. per person.

2.4.2 Farm Houses:

The Farm Houses were permitted and sanctioned under the provision of Master Plan-1962 and 2001. As per MPD-2021 the farm houses are now permitted only in the 'green belt'. All existing farm houses would be dealt with as per the Government policy on Farm Houses.

2.5 INDUSTRY

In the zone the existing industrial area in Tikri Kalan which has been developed by DDA for which the change of land use was notified by MOUD vide no. K-13011/34/95-DDIB, dated 11.11.1998 from Agriculture Rural use zone to Light and Service Industry (PVC Bazaar). As per notified land use plan of MPD-2021 land area of about 80 Ha near Tikri Kalan on South of Rohtak Road, in between Rohtak Road & Railway Line where industrial area of about 219 Ha has been earmarked for industrial use. In this pocket, on West of 220 KV line in area about 32 Ha built-up structures (pucca / semi-pucca / purely temporary) in scattered form under Warehousing/ Industrial use exists. This pocket is proposed to be developed / redeveloped by DSIDC. The delineation of the built-up area & its boundary under industrial pockets shall be taken up while preparing the redevelopment plans / industrial area plans. As per notification of GNCTD No. C.1 / Policy / INSTU/ Phirni road / Mundka, Udyan /2007 / 20 dated 17.9.2007 about 60 Ha land has been added under industrial use & equivalent area reduced mostly from PSP use & partly residential use.

In Delhi, Hi-Tech and value added industries which are not labour intensive have been suggested. In the zone about 500 Ha land is proposed under the industrial use zone which includes about 100 Ha land at Tikri Kalan under light and Service Industrial use (PVC Bazaar). Out of remaining 400 Ha about 80 Ha is proposed for relocation of the industries to be shifted from the existing non conforming areas and about 300 Ha land is proposed for hi tech industries. Non polluting household industries are permitted in the residential area / villages as per the Master Plan policy. This new industrial area measuring 160 Ha shall be identified in the facility corridor or in its continuity.

2.6 TRADE & COMMERCE, WHOLESALE MARKET

In this zone one wholesale market of food grains in Najafgarh and one wholesale fodder market in village TikriKalan are existing. Most of the Commercial activities are located in unplanned way in built-up residential area / villages / unauthorized colonies.

The hierarchy of commercial centres / activities shall be taken up in the form of District Centres, Community Centres, Local Shopping Centres and Convenience shopping Centres as per the MPD-2021. Five District Centres, 20 Community Centers shall be located in new Facility Corridors, 200 Local Shopping Centers and Convenience Shopping Centers shall be detailed out as per layout plan within Residential Usezone.

In the zone 600 Ha land is proposed under commercial use.

2.6.1 Service Markets: Service Market and organized informal bazaars have to be planned at appropriate locations.

2.6.2 Informal Sector: The informal sector shops are to be provided at appropriate locations as per the norms.

2.6.3 Zonal Wholesale Market: In the zone, one wholesale food grain market is existing in Najafgarh. New location of the wholesale market has also been proposed in the zone. These wholesale markets shall serve a sub city level market.

2.7 GOVERNMENT USE

In the zone, the local govt. offices are located mainly in the Najafgarh Town. Campuses of CRPF, BSF, ITBP, and Police Training College are functioning within an area about 333 Ha. These have already been indicated in land use plan of MPD-2021 under the category of Govt. Land (Use undetermined). Additional land of about 325 Ha. is proposed in the category of Govt. land (use undetermined) for further requirement of police and para -military organization. In the Green belt of village Isapur revenue boundary about 80 Ha land is also falling under this use.

2.8 PUBLIC AND SEMI PUBLIC FACILITIES

Deficiency of village level PSP facilities are proposed to be located in 20 – 25% of green area proposed around villages. About 10 Ha of land of width 100 – 120 m have been proposed to meet out PSP deficiency of village facilities. This 10 Ha land is part of city level PSP in MPD-2021, from where it has been adjusted to Community Level Neighbourhood Level facilities. Generally neighbourhood / community level facilities are proposed in land having width of 100 – 120 m, while city level facilities have been proposed in corridor width of 200 m proposed along road.

2.8.1 Health: The details of existing Maternity Center / Dispensaries have been collected. However to meet the requirement of 20 lakh population to be accommodated in the zone and to provide 5 hospital-beds per thousand population, a hierarchy of health facilities / hospitals has been proposed.

2.8.2 Education: Master Plan recognises the necessity to develop policies and norms to enable optimal utilisation of land and available educational infrastructure. Physical planning parameters are as under:

- Differential norms of standards for various educational institutions.
- Coaching centers / vocational training center to be permissible in school after school hours with the prior approval of Competent Authority.
- Permission of Nursery school in Residential Plots as part of Mixed Use Policy.

In the zonal plan land measuring about 53.6 Ha is to be kept for higher education.

2.8.3 Sports Facilities: There is an evident need for a properly planned and structured sports infrastructure. In the zone, a site of about 17 Ha is already existing for sports Training Institute. New sports facilities have to be provided in the zone in a hierarchy of divisional sports centre / Golf Course, District Sports Centre, Community sports centre. Lower level sports activities shall be allowed in Residential neighborhood.

2.8.4 Communications: The requirement of Post & Telegraph Office, Telephone Exchange shall be identified while preparing lay out Plans as the area requirement is not very large. Two plots of Head Post office each 2500 sq.m. and two plots of Telephone Exchange each of 2500 sq.m. are to be provided. Remote subscriber units within radius of 3 Km each of 300 sq.m. shall also be provided in the sector / scheme at appropriate location.

2.8.5 Security & Safety: Police Station / Police post, Police lines and Jail etc. shall be provided in Public / Semi public use. The requirement of 13 Ha land for Security facilities and 15 Ha for safety facilities such as Fire station has been proposed.

2.8.6 Disaster Management Centre: Delhi being in high seismic zone IV needs a Disaster Management Centre for which land measuring 3 Ha shall be earmarked, preferably in facility corridor.

2.8.7 Regularisation of existing Health Care, Educational, Cultural & Religious (including Spiritual) institutes existing prior to 01/01/2006 on self owned land not including Gram Sabha or Ridge Land.

2.8.7.1 In pursuance of the Public Notice issued in this regard, the Authority resolved incorporation & regularization of the above uses/activities in the 'Public and Semi Public' land use category of the Master Plan. The applications of the existing institutions as listed in the Annexure -VII shall be examined as per the Authority resolution and as per the direction of the Central Government issued from time to time. However, the regularization of existing institution located in the immediate vicinity of notified Ridge/Reserved Forest / Regional Park shall be subject to finalisation and demarcation of the boundaries of the aforesaid respective use zones/ areas.

2.8.7.2 In case of cultural, health care and educational institutions, the structures of such institutes as existed as on 01/01/2006, but not beyond the prevailing relevant provisions of MPD-2021, shall be considered for regularization. However, in case of the existing religious (including spiritual) institutions vis a vis the land presently owned by them, regularisation shall be subject to the conditions that a) the built up area in these cases shall not exceed FAR of 15 with maximum 15% ground coverage; b) shall be confined to the buildings, which are directly related to the use activities – religious (including spiritual); c) the structures as existed on 01/01/2006 shall only be considered and d) the remaining area shall be kept as "green area" with no construction to be permitted in future.

The regularization of all the above institutions shall be confined to those listed in Annexure-VII of this Plan or those cases recommended by DDA to the Government on or before 8th March, 2010, and shall be undertaken only after ensuring that the change of land use u/s 11A of DD Act, 1957 is notified in conformity with the provisions of MPD-2021 as and where required. This is further subject to the condition that such individual cases shall not be considered for regularization, if the site in question is located:

- a. On public/Government land; or on land acquired by DDA;
- b. On encroached land; or on illegally occupied land;
- c. In notified or reserved forest area;
- d. In area of right of way of infrastructure such as of existing/proposed railway lines/ master plan roads, major trunk water supply and sewerage lines etc.;
- e. Or if it violates the provisions of the Ancient Monuments and Archeological Remains Act, 1958, amended from time to time;
- f. Or in cases where there is a Court Order restraining change of land use or for eviction/ vacation of premises.

2.8.7.3 Further, regularisation orders of these categories of institutions shall not be considered as approved, unless the requisite payment of penalty / levy / additional FAR charges etc. are deposited by the applicant institutes; all the conditions prescribed by the Government are fulfilled and formal 'Regularisation Orders' are issued by DDA. None of the above institutes shall, however, be entitled to put the land to any other landuse at any time,

and doing so shall invite takeover of land by DDA for alternative uses, on payment of reasonable compensation.

2.9 FACILITY CORRIDOR

As per MPD 2021 there is no designated Land Use / Use Zone as “Facility Corridor”. However as per Master Plan, Facility Corridor is explained as corridor along the major Transport Networks to be utilized for provision of Sub-City/ Zonal level uses like Commercial, Public and Semi public, Recreational, Utilities etc. to be detailed out at the time of preparing Layout Plan/Local Area Plan.

The uses to be provided in Facility Corridor shall be as per section 3.2.2 - Hierarchy of Urban Development of MPD 2021.

Specific sites for various Public and Semi Public Facilities shall be provided in Facility Corridors which will consist of facilities for Health, Education, Security & Safety, Sports, Communications, etc.

2.10 TRANSPORTATION

2.10.1 Circulation Network: The Zonal Plan indicates circulation network, which is based on secondary source data. The actual detailed alignment will be with reference to the actual detailed project report/site survey and thus may undergo minor modifications at the time of finalizing the road alignment which will be incorporated in the sector plans/layout plans. A Realistic strategy of compensation & rehabilitation of project affected persons is recommended under these Plans / areas

In zone ‘L’, besides strengthening the existing road network, a new road network has been proposed consisting of major road of 80 m road ROW of length about 19 Km. on the southern side of the 400 KV tower line. 60 m road of length 27 Km and 45 m ROW road of length 151 Km 30 m ROW road of length 12 Km. Smaller size roads 24m shall act as the collector road in residential area. These local roads shall be provided while preparing the sector plan. The grade separator shall be provided at the junction of all the road of 30 m, 45 m, 60 m & 80 m.

2.10.2 MRTS Corridor and Influence Zone: MRTS / LRT / HCBS corridor along 60 m roads and above is proposed.

As per Master Plan-2021 para 3.3.2, influence Zone along MRTS Corridors and the Sub Zones for redevelopment and renewal should be identified on the basis of physical features, such as metro, roads, drains, high tension lines and control zones of monuments / heritage areas etc. This identification is to be done in consultation with GNCTD.

Green belt of 20 m width on both side of 80 m & 60 m road, while 10 m wide green belt on 45 & 30 m ROW has been proposed.

2.10.3 Fuel Stations: Petrol Pumps and CNG stations shall be provided as per the norms and to be indicated while preparing the Redevelopment, Local Area and Layout Plans. Already existing authorized CNG Service Stations for public transport vehicles, may continue

for this purpose alone, till the layout plans / local area plans / redevelopment plans are prepared.

2.11 RECREATIONAL

As per the Master Plan, 15% of the Urbanisable area of the zone is to be kept under the green / recreational activities. This will include the City Park / District Park and Community Park. The other level of the park i.e. neighborhood, housing area shall be provided in the residential area. Beside, these open spaces in the green area for multi purpose ground at city level, district level and community level shall also to be provided, out of the green area ear-marked in the zone. Since people are becoming more conscious about the recreational activities, Sports activities, amusement park, theme park and other open spaces shall be suitably located in the zone.

2.11.1 Multi- Purpose Grounds: A network of the Multipurpose grounds, a special category for holding marriages and other special functions has been proposed. These multipurpose grounds at the Community level shall be upto 2 Ha at the district level of 4 Ha and the city (zone) level shall be up to 8 Ha. Already approved for Parks as Farm houses on 60m roads approved for holding marriages by the Local body / MCD are designated as multi-purpose ground. The requirements for 20 lakh population proposed in this zone have been given in the Annexure-IV.

2.11.2 Conservation of Built Heritage:

MPD-2021 recognizes the need for protection of the built heritage and to prepare appropriate action plan for conservation of heritage Buildings, Historical landmarks, memorials gardens, public places etc. Conservation aspects shall be suitably incorporated while preparing layout plans / schemes.

In the Najafgarh area, heritage buildings / sites have been identified based from the information available with the INTACH. 16 such buildings along with their ownership and approximate date of construction of such buildings have been given in the Annexure-III.

2.12 GREEN BELT ALONG THE NCT BOUNDARY

As per the Master Plan, one revenue village along the boundary of the National Capital Territory is to be kept under the green belt where the activities as given in the Master Plan shall be permitted. The green belt in the area with help in maintaining ecological balance between the built structure of the Delhi State and the Haryana State. There are 21 revenue villages which fall in Green Belt, covering an area of about 10322.00 Ha. (Refer Annexure-I).

2.13 URBAN DESIGN

Along the important main movement corridor i.e. MRTS corridor, major roads, i.e 80 m. and 60 m. wide road, Urban Design aspect shall be considered at appropriate places. The tall buildings and the urban form shall be worked out in preparation of detailed plans.

2.14 WATER BODIES AND REVIVAL OF NAJAFGARH JHEEL

In the zone there about 58 urban villages, out of which 21 fall in the area designated as the green belt. Almost in all the villages either in the extended Lal Dora or within the distance of 1.52 Km, from the abadi area village pond are existing. These water bodies have been indicated on the zonal plan and are proposed to be conserved as per the directions of the court and the policy framed of developing water bodies and the green area falls around.

Low lying area in the revenue village of Raota, Gumanhera, Jainpur, Shikarpur, & Jhatikara measuring about 356 Ha. (890 acres) adjoining Najafgarh Drain has potentially for the developing it as a lake which is to be utilized for the recreational activities as well as water recharging area. The development of the lake shall be taken up in a comprehensive manner by Govt. of Delhi, MCD, DDA along with the Haryana Urban Development Authority as part of the area of the proposed lake is falling in the Haryana. Tourist infrastructure would be permitted on the banks of lake / artificial islands.

2.15 PHYSICAL INFRASTRUCTURE

2.15.1 Water Supply: Water required for the year 2021 for zone L is about 76 Mgd. The areas for water treatment plant and its reservoirs, ground water recharging area have been suggested. Potable water in this zone is mostly from the tubewell. The availability of the water in this zone shall be as per the norms considered in working out the requirement of the water at the city level. About 34 Ha of land, for water treatment plant has been made available to the Delhi Jal Board in adjoining zone i.e. K-I. Beside this, a provision has been kept about 45 Ha of land in the zone for locating a new water treatment plant near village Mitraon, on Najafgarh Dhansa road.

2.15.2 Drainage & Sewerage: The entire Najafgarh Basin has its catchment area of about 10939 Ha. The other important natural drains flowing through this zone are Mungeshpur drain and Mandela drain (Refer Annexure-V). It is proposed that the storm water of the urban development shall flow through these drains. An existing sewerage treatment plant with the capacity of 5 MGD is serving the Najafgarh Town which requires augmentation. The new location of sewerage treatment plant of 80 MGD capacity is proposed near the Najafgarh Drain, in revenue village *Jhuljhuli*.

2.15.3 Solid Waste: It is proposed to set up the mechanized plant / compost plant for solid waste which is projected to be 1360 tonnes per day. This plant shall be located based on the requirements in the green belt or at location in village Tikri Kalan, Jhuljhuli and Kanganheri.

2.15.4 Power: The power requirements have been worked out for the zone which is connected through the power grid line. No new location of the power station has been worked out in this zone. However, the zone 'L' based on the requirement received from the Delhi Transco. Two 400 KV grid station site and two 220 KV grid station sites have been identified. One site of 400 KV is already located in the revenue village of the Tikri Kalan / Neelwal. Other location proposed on the Mitraon Dhansa road. A 220 KV grid station site is already under execution at Rewala Khanpur and the other 220 KV grid station has been proposed in revenue village *Daryapur Khurd*.

2.16 MODIFICATIONS IN ZONAL PLAN

In the zonal plan the modifications in land uses undertaken as part of Master Plan for Delhi-2021 has been incorporated. The details of these modifications are given in Annexure VI.

2.17 PLAN IMPLEMENTATION REVIEW AND MONITORING

In an urbanisable area of 11,611 Ha. the zone will hold a population about 20 lac. This development of 11,611 Ha will be taken up in the phased manner. The acquisition of the land required for providing the infrastructure facilities as well as laying of the roads shall be taken up on priority Land acquisition proceedings should be taken up as soon as the zonal plan is notified by the Govt. Implementation of the zonal plan will depend upon the effective participation of the Public and Private sector. In development of the infrastructure for residential, commercial and public / semi public area.

The zonal plan shall be reviewed periodically and coordinated efforts shall be made for involvement of the all concerned local agencies responsible for providing the physically and social infrastructure. Any corrective measures require in land use shall be taken up.

2.17.1 Layout plans and Redevelopment plans: Layout plans of the facility corridor consisting public / semi public uses, commercial area, Industrial area, Formal green area, village development plan including the facility area / green area proposed in width of 100 m around villages, special area plan for Najafgarh Town and redevelopment plan for unauthorized colonies shall be worked out / detailed out in due course of time as per directions of Government issued from time to time. The layout plans already approved by the Authority or any other local authority concerned in accordance with the law shall be deemed to have approved under Master Plan.

ANNEXURE –I

AREA AND POPULATION OF VILLAGES OF ZONE 'L'

S.No	Name of Village	Area in		Population as per Census 2001	Status (Urban/Rural/ Green Belt)
